

OFFICIAL BRAND STANDARDS

BRAND STYLE & *visual* SYSTEM

The single source of truth for Flynth Technologies brand story, visual identity, logo assets, design tokens, color palette, typography standards, and UI component architecture.

PRIMARY BRAND TAGLINE

"Built strong. Delivered fast."

CORE PILLARS

STRONG

SECURE

FAST

Rebrand Context: Formerly Spark Studios Creatives (sparkstudios.qzz.io). Derived from *flint* (strength, sparks, secure systems) and the *falcon* (speed, sharp execution).

01. Brand Essence & Symbolism

Pronunciation & Legal Naming

Everyday Name: Flynth

Formal Legal Name: Flynth Technologies

Phonetic Pronunciation: /'flɪnθ/ (rhymes with "flint", soft "th" as in "think").

Rules: Use "Flynth" in casual context/merch. Use "Flynth Technologies" on contracts and legal footers.

Origin Story & Falcon Symbolism

Flint (Sedimentary Rock): Hard stone used to strike sparks and start fires. Symbolizes strength, resilience, and the spark of creation.

Secure Systems: Ties directly into secure, resilient infrastructure for enterprise and fintech clients.

Falcon Mark: Symbolizes speed, agility, razor-sharp execution, and rapid delivery.

CORE BRAND PROMISE

STRONG. SECURE. FAST.

Engineered for performance & reliability.

02. Tagline Architecture

Icon + FLYNTH	90px Width	Website Navbar, Mobile Header
Full Lockup	160px Width	Business Cards, Deck Cover, Footer

07. Logo Do's & Don'ts

✓ Logo DO'S

- Use official vector SVG files for crisp print & digital scaling.
- Keep "FLYNTH" visually dominant over "TECHNOLOGIES".
- Use "Icon + FLYNTH" for compact navbars without "TECHNOLOGIES".
- Maintain clear contrast against dark and light background canvas.

✗ Logo DON'TS

- DON'T fuse into "FLYNTHTECH" as a single combined word string.
- DON'T substitute logo typography (Poppins) with website body type (Inter).
- DON'T stretch, distort, skew, rotate, or alter aspect ratios.
- DON'T add non-brand drop shadows, glows, or unapproved gradients.

08. Semantic Color Tokens

Exact color values pulled directly from production design tokens and Tailwind configuration files.
